

# PATRIOTlink®

## A service of Code of Support Foundation

### Changing Lives One Click at a Time

We know that as providers working to help connect veterans and their families with additional support, you need a quick and easy way to find targeted resources.

There are tens of thousands of services available to those who have served. But finding and accessing them can be overwhelming, even for experts in the field.

That's why we created PATRIOTlink®, a free online hub designed for providers and case management professionals, as well as service members, veterans, caregivers, and their families.

PATRIOTlink® helps you easily identify and connect to thousands of VA/DoD, community-based, state and local resources available to veterans and their families. All programs listed on the platform are carefully vetted and updated by COSF staff.

***“One of the biggest calls to action I have as a peer supporter is to find and recommend resources for specific needs. With PATRIOTlink I have a vetted and monitored resource referral system that I never hesitate to use.”***
